# Certified Scrum Product Owner® (CSPO) Certification Course Overview

The Certified Scrum Product Owner® (CSPO) certification is a widely recognized credential offered by the Scrum Alliance. It is designed for individuals who want to enhance their understanding of the Scrum framework and develop the necessary skills to effectively perform the role of a Product Owner within an agile team.

The CSPO® certification training provides participants with a comprehensive understanding of Scrum principles, practices, and techniques, specifically focusing on the Product Owner role. It equips individuals with the knowledge and tools needed to maximize the value delivered by their Scrum teams and create successful products.

When you get CSPO® certified, you'll go through training that teaches you all about Scrum, focusing on the role of a Product Owner. This training gives you the knowledge and tools to help your Scrum team deliver the best value and create successful products. It's like a special program that helps you become good at guiding your team and making awesome products.

## Key Features

- Gain 14-16 PDUs and 14-16 SEUs in the two days workshop.
- Training from expert Certified Scrum Trainers (CSTs).
- Practical knowledge through hands-on Scrum activities.
- Experiential learning format to advance your Scrum knowledge
- Certification by Scrum Alliance, a globally acclaimed accreditation body.
- The exam fees are included in the course.

## Prerequisites

The Certified Scrum Product Owner® (CSPO) program has no prerequisites. But, fundamental knowledge of Scrum will help you to grab the Product Owner's responsibility at the organizational level. Your next step in your career should be to enrol in the CSPO® training if you are a Certified Scrum Master® (CSM®).

## Skills Covered In CSPO® Certification Training

- Agile and Scrum Knowledge
- Product Vision and Strategy
- Product Backlog Management
- Stakeholder Engagement and Collaboration
- Agile Estimation and Planning
- Monitoring and Adaptation
- Leadership and Decision Making
- User Story Writing and Requirements Management

## Course Benefits

### Enhance your Product Ownership Skills:

The CSPO® Certification equips you with a deep understanding of the Product Owner role, enabling you to effectively manage product backlogs, prioritize tasks, and communicate with stakeholders. This skill enhancement significantly improves your ability to deliver value-driven products.

### Collaborative Stakeholder Engagement:

With the CSPO® Certification, adept at fostering productive collaboration with stakeholders, including customers, development teams, and business units. This skill is vital for gathering requirements, clarifying expectations, and ensuring alignment on project goals.

### Optimized Product Value:

During this CSPO® training, learn to prioritize features confidently based on customer requirements and business objectives. This skill helps you maximize the value delivered by the product, resulting in increased customer satisfaction and market success.

### Agile Framework Mastery:

CSPO® Certification empowers you to operate within the Agile framework more effectively. Understand how to leverage Scrum principles to adapt to changing requirements, mitigate risks, and continuously improve the product development process.

### Hands-On Technical Skills:

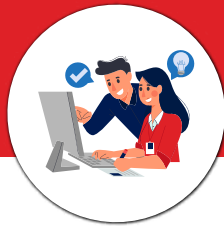

Holding a CSPO® Certification adds a valuable credential to your professional profile. It opens opportunities for leadership roles, product management positions, and cross-functional collaborations. Employers recognize and value this certification's expertise, making it a significant asset for your career growth.

### **Abid was an exceptional instructor**

Abid was an exceptional instructor. I took the CSPO course and had an eye opening experience with respect to the approach Abid took to deliver and consolidate a vast amount of knowledge, while also ensuring it was relevant to the day-to-day careers of all participants. I would highly recommend taking a SimpliAxis course with Abid. Additionally, the teachings/learnings were immersive through Mural and made the course a thoroughly enjoyable experience.

### **Great experience taking the CSPO course**

The instructor (Aakash) for the CSPO course was very knowledgeable with a positive attitude. Aakash provided excellent responses to questions from the class. Class was interactive and was an experiential experience. A couple days prior to class I received multiple emails with joining instructions and other information. What I appreciated is that this information was sent a couple times, which made sure it wasn't missed and also served as a reminder ( since I registered about a month early).

### **Thank you Akash and SimpliAxis**

Thank you Akash and SimpliAxis, for the CSPO training sessions. Sessions were very interactive and informative. I learned a lot and will apply it at work.

**Date of experience:** August 13, 2023
