About Simpliaxis

Simpliaxis excels in delivering personalized corporate training solutions that cater to enterprise teams seeking to enhance their employees' job-specific skills. Our comprehensive programs, offered live virtual instruction-based training sessions, are led by certified trainers specializing in refining your learning journey. This empowers your teams to not only meet industry standards but surpass them.

We prioritise a hands-on approach that involves tool-based learning, guided instruction, progress tracking, and precise grading. Our strength lies in tailoring the curriculum to align with your team's and company's requirements. With a diverse pool of consultants boasting cross-industry experience, we offer versatile learning options, including online, offline, and self-paced formats.

Simpliaxis offers a course for aspiring Lean-Agile leaders. Become a SAFe® Practice Consultant (SPC) and gain profound insights into SAFe's layers, enhancing your company's development processes. Our expert partners guide you to excel in your role, equipping you to drive change effectively with confidence and motivation.

SAFe® 6.0 Practice Consultant (SPC) - Implementing SAFe Training Course Overview

Simpliaxis' SAFe® 6.0 Practice Consultant (SPC) - Implementing SAFe® Training Course aims to shape you into a trustworthy agent, ready to lead transformational expeditions. Our meticulously designed SPC program nourishes you with the knowledge and skills required to tackle the principles and practices of the Scaled Agile Framework (SAFe®). Through four intensive days, you will cover a comprehensive curriculum that includes a wide array of vital topics. Our guarantee is that you will be fully equipped to lead transformational journeys by the end of this program.

During the initial two days, we mainly focus on establishing a solid foundation in SAFe® fundamentals. Participants will learn the complexity of coaching programs efficiently and constructing a sustainable delivery pipeline. Moreover, they will acquire the expertise needed to develop an organization's transformation plan and support it with effective change management practices.

The final two days are dedicated to the practical implementation of SAFe® within an organization. Participants will gain proficiency in launching and facilitating Agile Release Trains (ARTs), fostering a DevOps culture, and optimizing Lean portfolios.

By the end of this training, you will be poised to lead agile transformations with confidence and precision, making a significant impact on your organization's journey towards agility.
