

A woman in a grey cardigan and dark dress is pointing at a whiteboard in a meeting room. The whiteboard has a mind map with the central text "CONCEPTS FOR EXPANSION". Branches include "MONEY ↑", "Modularity", "Happy CP Level", "Freedom", "Branding", and "Free". Other notes include "20% stock" and "20% cash". Several people are seated at a table in the foreground, looking at the whiteboard. The table has laptops, mugs, and papers.

About Simpliaxis

Simpliaxis excels in delivering personalized corporate training solutions that cater to enterprise teams seeking to enhance their employees' job-specific skills. Our comprehensive programs, offered live virtual instruction-based training sessions, are led by certified trainers specializing in refining your learning journey. This empowers your teams to not only meet industry standards but surpass them.

We prioritize a hands-on approach that involves tool-based learning, guided instruction, progress tracking, and precise grading. Our strength lies in tailoring the curriculum to align with your team's and company's requirements. With a diverse pool of consultants boasting cross-industry experience, we offer versatile learning options, including online, offline, and self-paced formats.

Simpliaxis, a Gold SPCT Partner of Scaled Agile Inc.®, offers top-notch training to help practitioners achieve this highly sought-after certification. The SAFe® 6.0 Product Owner/Product Manager designation is conferred by Scaled Agile Inc. upon successful completion of a two-day SAFe® 6.0 POPM training with a SAFe® Practice Consultant and passing the Certified SAFe® 6.0 POPM certification exam.

Course Benefits

Comprehensive Expertise:

Through the SAFe® 6.0 Product Owner/Product Manager certification training, you will gain a deep and extensive understanding of the various processes, mechanics, and tools essential for effectively managing complex programs. This expertise equips you with the knowledge and skills to tackle daily life-cycle challenges.

End-to-End Mastery:

This certification training doesn't just provide a surface-level understanding of product development; it immerses you in the entire journey, from the inception of an idea to its successful execution. This end-to-end mastery ensures that you are not just focused on isolated phases but can oversee and optimize the entire process for better outcomes.

Agile Leadership:

With the SAFe® framework at its core, this training hones your ability to provide agile leadership that aligns with business objectives. You'll learn how to navigate the complexities of translating strategic goals into actionable plans, ensuring that your team works cohesively and effectively toward achieving those goals, ultimately driving value for the organization.

Strategic Insight:

By obtaining this certification, you will thoroughly understand your organization's business model. This will provide you with strategic insights that enable you to communicate effectively with customers, stakeholders, and teams. With a clear understanding of the bigger picture and aligning your communication with the organization's objectives, you can be confident that your product development efforts are always in harmony with the business's requirements.

Career Advancement:

Holding the SAFe® 6.0 Product Owner/Product Manager certification places you in a league of distinguished professionals. It marks you as an expert who understands how to navigate the intricacies of agile product management within the context of the SAFe® framework. This recognition boosts your credibility and opens doors to exciting opportunities in top-tier companies where your expertise is highly valued.

Thank you so much Jaikrishna(Jai) for wonderful SAFe POPM session

Thank you so much Jaikrishna(Jai) for the wonderful SAFe POPM session. It was very informative and you have explained and cleared all our doubts. The most interactive training session I ever had and you have designed the modules so well. Thanks.

Jai is an excellent trainer for POPM

Jai is an excellent trainer for POPM. He was very detailed & explained almost every point along with his real-time experiences. He not only clarified PO/PM-related doubts but he has also gone a few extra miles to ensure other SAFe-related questions. At the end of the training, he also explained all the important paths where we can find materials on SAFe Studio and also guided us for exam preparations.

POPM training by Jaikrishna....

I am thankful to Simpliaxis for organising a wonderful training with Jaikrishna for POPM class. Jaikrishna's way of teaching was great. He went extra mile in answering all the students queries with more examples. Hats off!! Jaikrishna's knowledge and expertise in Agile way of working and mainly in SAFe is commendable. I would recommend 100% of his training to anyone who's interested in learning the Agile way of working and the SAFe framework.
